### **Event details**

A presentation of works in their natural environment – in the space where they are created. During the visit, approximately 20 ceramic paintings will be displayed in a micro-gallery, which is also the artists studio. These paintings are unique works of art, created from precisely shaped, handmade elements. This unique technique goes far beyond the traditional concept of mosaics as merely decorative art, combining plastic poeticism with deep conceptual content. During the meeting, we will talk about the process of creating these works as well as the artists inspirations.

### **Practical informations**

Participation is free. No registration or notification is required. The event is intended for the specified group of people for whom it is dedicated. Visiting takes place during designated hours.
