Event details

A guided tour of the exhibition Last Days of Summer by Michał Prażma is the only opportunity, outside of the opening, to meet the artist! The guided tours will take place at 18:00 and 21:00. Michał's style is characterized by precision and attention to detail, refined through technical studies. The central theme of his work is portraits and paintings that delve into complex relationships between individuals and the challenges they face. His paintings provide a personal commentary on the surrounding reality, drawn from observations of current social moods, human relationships, and emotions.

Practical informations

Participation is free of charge. No registration is required. The event is designed for the specified audience. Tours will take place at designated times, with the artist-guided tours at 18:00 and 21:00.
