## Event details

We invite you to a meeting with the artist accompanying the exhibition "Barbara Munzer, In the Glow of Gold and Silver". During the exhibition, neosecessionist objects will be on display: dresses and dragonflies made of semi-precious metals: brass and silver and colored enamels. Barbara Munzers work represents an outstanding achievement in metalworking and is a one-of-a-kind piece of art. From 4:00 pm to 6:00 pm, there will also be workshops for children titled "Shine and Color, Jewelry Inspired by Painting", organized by the Goldenmark Foundation as part of the "Treasure Seekers" project.

## Practical informations

Meeting with the artist from 7:00 pm to 11:00 pm. During the workshops, children will handcraft jewelry.
