Event details

We invite you to the exhibition "How Did Teachers Live in the Second Polish Republic?" (awarded the Sybilla 2016 distinction). The tour will be led by exhibition curator Prof. Maria Ekiel-Jeżewska (IPPT PAN) and MZM staff, highlighting the connection between science, art, and technological development in education during the interwar period. The exhibition recreates a teacher's apartment from the late 1930s, with a veranda-style entrance and authentic interiors of two rooms, a kitchen, and a bathroom, offering an immersive experience of daily life in that era.

Practical informations

Tours are conducted in small groups. Unique exhibits illustrating the work and life of Polish teachers in the 1930s will be presented. Free admission. No registration required. Last entry at 7:00 pm.
