Event details

“The Chatter of Trees“ is a spatial electroacoustic composition/music installation by Anna Jędrzejewska. This unique concert will conclude this year's Warsaw Music Meetings. The composer was inspired by the latest discoveries in plant communication, significantly influenced by Polish dendrological research. The performance will create a musical space intertwined with part of Park Fosa. The audience will be able to freely walk through the sound field, surrounded by a combination of several speakers of various sizes.

Practical informations

Participation is free. No registration or notification is required. The event is intended for the specified group of people for whom it is dedicated. Visiting takes place during designated hours.
